

PUBLIC-SOURCE SNAPSHOT | 6 OCTOBER 2026

Competitor Research Sample — Scheduling Software

Calendly · SavvyCal · Cal.com

A focused comparison of published offers for individuals and small teams. Prices below describe the selected plans and their stated billing context; they are not a like-for-like price ranking.

PRICING AT A GLANCE

Selected offer	Displayed price	Billing context and unknowns
Calendly Standard [1]	\$10 / seat / month	Page showing yearly billing. Monthly payment amount, currency code and tax treatment: UNKNOWN.
SavvyCal Basic [2]	\$10 / user / month	Page displays “Save 2 months”. Active annual/monthly selector, currency code, upfront amount and taxes: UNKNOWN.
Cal.com Teams [3]	\$12 / user / month	Explicitly labeled YEARLY. Monthly payment amount, currency code and taxes: UNKNOWN.

KEY TAKEAWAYS

- Start with the use case.** Solo users should check free-plan calendar and event-type limits; teams should prioritize coordination features.
- Compare matching features.** Round-robin routing, custom domains and delegation are different needs. The selected paid tiers do not establish equivalent functionality.
- Validate the checkout context.** Confirm currency, billing selection, upfront payment and taxes before calculating annual cost or making a purchase.

PUBLISHED FEATURES AND POSITIONING

What each offer emphasizes

Features are statements from the official pricing pages. Positioning notes are interpretations of the published tiers, not tested performance or evidence of market share.

01 **Calendly** Standard [1]

Published features Multiple calendar connections, unlimited event types, automated reminders, and Stripe/PayPal connections.

Additional plan context Free tier: one event type and one calendar.

Positioning interpretation A broad progression from individual scheduling to team routing.

02 **SavvyCal** Basic [2]

Published features Unlimited calendars and booking links; team scheduling.

Additional plan context Premium is displayed at \$17/user/month and adds custom domains, delegation and paid bookings. Its billing context, currency code and taxes are UNKNOWN in this sample.

Positioning interpretation Basic addresses individuals and small teams; Premium emphasizes greater control of scheduling flows.

03 **Cal.com** Teams [3]

Published features Shared availability, round-robin scheduling, routing forms and removal of branding.

Additional plan context Free individual tier lists unlimited event types and calendars. Teams offers a 14-day trial.

Positioning interpretation The paid tier centers on collaborative scheduling, above a broad individual free tier.

SOURCES & METHODOLOGY

An explicit evidence trail

All three official pricing pages were consulted on **6 October 2026**. This report preserves that dated snapshot; it does not claim live checkout verification.

[1] Calendly - official pricing<https://calendly.com/pricing>

Access date: 6 October 2026

[2] SavvyCal - official pricing<https://savvykal.com/pricing>

Access date: 6 October 2026

[3] Cal.com - official pricing<https://cal.com/pricing>

Access date: 6 October 2026

METHODOLOGY

Public desk research of one official pricing page per competitor. Selected offer: Calendly Standard, SavvyCal Basic and Cal.com Teams. Supporting free-tier and SavvyCal Premium details are included only where stated in the source snapshot.

Displayed prices are preserved with their stated units and billing labels. Ambiguous or unconfirmed information is marked **UNKNOWN**. Vendor statements are separated from positioning interpretations; no normalized price ranking is calculated.

LIMITS AND UNKNOWN INFORMATION

UNKNOWN: definitive currency codes and tax treatment for the selected offers; monthly-payment amounts for Calendly and Cal.com; SavvyCal's active billing selection and amount due upfront.

No product testing, account creation, checkout, sales contact or paid subscription was performed. Reliability, usability and commercial outcomes are **UNKNOWN**. A missing feature in this report does not establish its absence from a product.

Prices can change or vary by location and billing selection. Before a purchasing decision, validate the current plan, currency, checkout total, tax treatment and required features.
